### THE NON-RESIDENT VOTER.

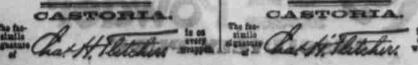

There was a great deal of voting away from the residence precinct of the voter. Men went to the larger towns to vote and hear the news. Many of the Polk county men voted In Marion; and so of other counties, men voted in the adjoining counties.

The amendment to the constitution, providing that every man vote in his own residence precinct, which has passed two legislatures, ought to be adopted. Not less than 400 or 500 voters of other precincts and counties voted at Salem. Probably 1,000 voted in this county who live in other counties.

No doubt all, or most all, of these men were entitled to vote. If they voted only once, their voting at Salem will not change the result in the a shortage of 50,000,000 bushels. India state. It was the intention of the McKinleyites to save Marion county cisco. Australia exports about 10,000,at all hazards, by a few hundred votes.

It is not too late to say that the only Simon pure gold standard ticket was not extremely popular. Palmer had no trouble in keeping the people at a distance. The only anxiety of the populace to get at them did not spring from a complimentary desire or to do them honors.

The matchless system of producing prosperity you can give the country, prosperity known as the gold standard has received a rude shock. if it becomes our duty.
